Cashless System Eltham College Case Study

ELTHAM COLLEGE

WHAT WAS THE CHALLENGE

- A cashless system to deliver a faster service at the point of sale, due to limited time for students to purchase items
- Utilise the integrate with MIS & existing student RFID cards for a contactless transaction
- Drive sales outside of core service such as breakfast club and break
- A process to safeguard allergen and dietary needs
- Ability for students and parents to easily add funds to their account

WHAT DID WE OFFER

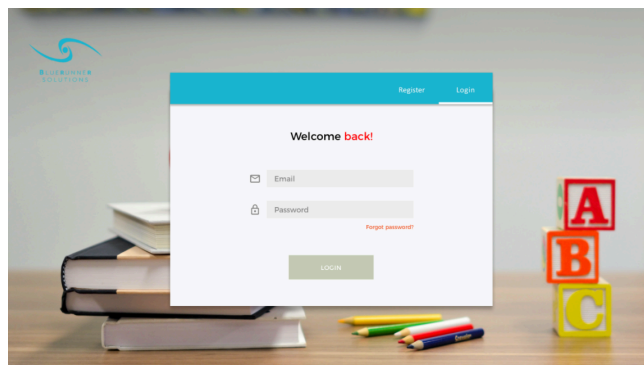

- A cashless platform which integrates with the schools MIS system to capture the student's details and balance
- The system that notifies specific dietary requirements
- Flexible solution to process transactions outside of the core lunch service
- A secure cashless platform allowing parents, students & staff to add money to their account and view transactions
- A contactless solution which automatically links the staff and student's RFID card at the point of

"Implementing the BlueRunner System was easy – our team adopted it quickly which has helped improve overall efficiency and increased engagement with our students."

Operations Manager

WHAT ARE THE RESULTS

- The speed of service has drastically increased, the catering team simply need to scan the RFID card of the student/staff which instantly displays the name, balance, allergen information & menu available
- Increase in sales due to the ease of use and ability to 'top up' online
- Improve user uptake & engagement through use of a convenient digital platform giving users full control over balance and payments
